

AUTOMOTIVE SERVICES

Automotive Services

Marcum has served the automotive industry for many years. Our client list has included dealerships representing more than 40 automobile lines and, at one point, combined revenues were in excess of \$1.5 billion. These clients have ranked in the top 10 for each automobile line they represent and are among the top 50 volume dealerships in the country.

OUR INVOLVEMENT IN THE INDUSTRY HAS COVERED THE FOLLOWING AREAS:

In a world where business relationships are constantly changing, the need to have a business valued or appraised arises often. There are many reasons why one may require a business valuation. These include:

- Auditing and accounting activities
- Valuation of dealerships
- Negotiations with factory ownership
- Initial set up of dealership points including construction
- Sales, mergers & acquisitions
- Litigation support / expert witness testimony
- REITS and loan financing
- Operational systems implementation
- Computer and informational consulting
- Statutory compliance consulting
- Federal and state tax compliance
- Taxation planning
- Operational profitability analysis and benchmarking

The personnel serving this industry have many years of diverse experience complimenting each other in the numerous aspects of automotive issues.
