

Jeffrey M. Weiner

Jeffrey M. Weiner joined Marcum in 1981 and has led the Firm since 1990, when he was named managing partner. In June 2017, he was named the Firm's first chairman & chief executive officer. Under Mr. Weiner's leadership, Marcum has grown from a single-office firm of 20 employees to a firm ranked among the largest in the United States.

Mr. Weiner has steadily expanded the Firm's global footprint through strategic mergers, acquisitions, and joint ventures in major business markets across the country and overseas. Today, Marcum LLP is one of the largest independent public accounting and advisory services firms in the nation, with offices throughout the U.S., as well as Grand Cayman, China and Ireland. Headquartered in New York City, Marcum provides a full spectrum of traditional tax, accounting, and assurance services; advisory, valuation, and litigation support; and an extensive range of specialty and niche industry practices. The Firm serves both privately held and publicly traded companies, as well as high net worth individuals, private equity funds, and hedge funds, with a focus on middle-market companies and closely held family businesses.

Mr. Weiner has been single-minded in diversifying Marcum's services and capabilities to meet the evolving needs of the Firm's clients, a key factor in Marcum's continuing growth. In addition to the core tax and accounting business, Mr. Weiner has built a multiservice organization providing a comprehensive range of professional services, including accounting and advisory, technology solutions, wealth management, and executive and professional recruiting. The Marcum Group companies include Marcum LLP; Marcum Technology LLC; Marcum Search LLC; Marcum Staffing LLC; Marcum Financial Services LLC; Marcum Bernstein & Pinchuk LLP; Marcum Wealth Management, LLC; and Marcum RBK (Ireland) Limited.

A proponent of leveraging technology for business solutions, Mr. Weiner established Marcum as an early adopter of technology strategies to modernize traditional accounting processes and drive efficiency and productivity for the Firm and its clients. His technology charter for the Firm is business innovation, digital transformation, digital customer experience, data analytics, and security/risk management. One result is Marcum's Robotic Process Automation (RPA) service for clients, designed to automate repetitive manual processes and streamline data-driven functions to help clients reduce their operating costs and improve efficiency through the use of "bots." Another example is Marcum Pulse, a unified enterprise platform that brings together multiple service lines in a single operating window to streamline client service and provide real-time performance metrics.

Mr. Weiner has been singled out for his leadership role in the accounting industry. In 2016, he became the first U.S. accounting firm leader to be twice named an "MP Elite" by Accounting Today. In inducting Mr. Weiner into the exclusive ranks of elite accounting firm managing partners, the publication noted his achievement in continually growing Marcum's revenue, reach and relevance. "[Mr.] Weiner was a member of our inaugural class of the MP Elite in 2012, and it's no accident that he returns this year - he's one of the most admired firm leaders in the country, and continues to lead Marcum to new heights, remaining just as aggressive in both M&A and organic growth. When he first made the list, we noted his national drive;
