

DAVID MUSTIN, MBA

VICE PRESIDENT - STRATEGIC IT CONSULTING ► MARCUM TECHNOLOGY

 440.459.5755

 dave.mustin@marcumtechnology.com

David Mustin is a vice president of strategic IT consulting at Marcum Technology, responsible for implementing technology projects such as strategic IT roadmaps, IT assessments, system selections, restructuring, and post deal value capture.

A partner with Marcum LLP and with more than 25 years of professional management consulting experience, Mr. Mustin specializes in developing and executing business and IT strategic growth and transformation initiatives. He has an extensive background in formulating and executing technology strategies and digital transformation initiatives.

Mr. Mustin's industry experience includes work with manufacturing companies, high-tech firms, healthcare providers, life sciences companies, professional service organizations and nonprofit entities. He works closely with clients to formulate strategic growth and profitability opportunities while also addressing their technology needs.
