

# FREDERICK JOHNSON

VICE PRESIDENT - CYBERSECURITY & DIGITAL FORENSICS

► MARCUM TECHNOLOGY

949.236.5719

frederick.johnson@marcumtechnology.com

Frederick Johnson is a vice president of cybersecurity and digital forensics with Marcum Technology and responsible for leading a wide range of high value strategic governance and cybersecurity technical services that all drive validated cybersecurity risk posture improvements. Based in Orange County, California, Mr. Johnson offers expertise in cybersecurity, privacy, governance, risk and compliance and information technology.

As both technologist and strategic leader, Mr. Johnson has been an information technology practitioner for more than 30 years with the last 20 years specializing in helping companies holistically address their information security and privacy issues. He has directly led or defined several large cybersecurity programs as a senior leader within those organizations. His industry experience includes domestic and international engagements in many industries, including private equity, healthcare, property and casualty insurance, software development, private education, legal services, manufacturing, financial services, professional services and government entities. He has worked with clients ranging in size from small to mid-size private businesses up to multiple engagements with Fortune 200 public companies. Mr. Johnson is also a well-known cybersecurity industry veteran who has spoken to more than 200 audiences in the last five years.

Mr. Johnson brings a unique perspective to client engagements with a blend of strong information security expertise and direct practical experience in implementing cybersecurity risk programs that help clients better support their growth and risk management objectives.
