

Joseph Giella

MARCUM TECHNOLOGY

Joseph Giella is a partner and vice president of data protection strategy for Marcum Technology LLC, a national technology advisory and consulting organization that is part of the Marcum Group.

Founded in 2001, Marcum Technology provides a wide array of technology services and solutions to clients across a variety of industries with solutions that scale from the SMB to Enterprise markets. Mr. Giella has been with the Firm since 2003.

In his role, Mr. Giella is responsible for the development of "go to market" strategies relating to data protection, cloud, disaster recovery and business continuity, including formulating, coordinating, and maintaining local and national initiatives.

Mr. Giella provides direction to internal staff, vendors, business partners and members of the Executive Leadership Team.
